This is a fictional, internally consistent document generated for the Secure Multi-Agent Enterprise Assistant dataset. It is not legal, HR, financial, or security advice for a real organization.

1. Discount approval levels

Discounts are reviewed against margin, customer value, promotion eligibility, and strategic account terms.

Discount	Approval requirement
Up to and including 10 percent	Sales Manager
Above 10 percent through 20 percent	Finance Manager
Above 20 percent	Finance Manager and Executive

2. Promotion controls

Only active promotions may be applied. A promotion cannot be combined with an exception discount unless the approver reviews the combined margin impact.

The Sales Analytics Agent may compare channels, regions, promotions, products, sales, and profit. It must not claim causation from a simple correlation.

- Detailed customer exports require sales.export.
- Aggregated performance may be shared within the authorized management scope.
- Every discount exception creates a human approval and audit record.
